

CMS Seminar: Perspectives on the future of cybersecurity

Cybersecurity has received increasing political, military, and scholarly attention in the past decades, accompanying the growing dependence on digital infrastructures and technologies. Today, cybersecurity is a defining feature of international politics and security. The importance of cybersecurity is only expected to rise with the constantly growing digitization, the advent of emerging digital technologies, and the increased geopolitical turmoil. This seminar brings together a diverse group of avant-garde cybersecurity scholars to discuss the future of cybersecurity policy and research.

Panelists:

- Max Smeets, Senior Researcher, ETH Zurich
- Sarah Backman, Postdoctoral Researcher, Swedish Defence University
- Fabio Cristiano, Assistant Professor, Utrecht University
- Bassant Hassib, Non-Resident Scholar, Middle East Institute
- Andrew Dwyer, Lecturer, Royal Holloway University

Moderator: Tobias Liebetrau, Researcher, Centre for Military Studies

Time: Thursday, 8 February 2024, 15:00-16:30

Place: Room 4.2.26 (DPS Lunchroom), CSS, Øster Farimagsgade 5, 1353 CPH

Please register no later than 7 February at <https://cms.polsci.ku.dk/events/>
