

**Figure 4.3.2.** The extent to which respondents have obtained new, relevant knowledge from CMS activities. Percentages.

To what extent respondents have obtained new, relevant knowledge from various CMS activities  
All respondents

*NOTE: The figure shows the percentages of responses regarding the respondents' obtainment of new, relevant knowledge from each of the four types of CMS activities and for each of five response options. The total number of responses for each of the four types of activities is indicated in the figure text (n), each "n" corresponding to 100% of the shown responses for an activity. The non-responses, including the "do not know" answers, are not included in the n-numbers or in the percentages, but they are indicated in the tables in annex 4.5 together with the numbers for each of the four types of activity and for each of the response categories.*
